SKILLS

- **Node.JS** ★★★★★
- **MongoDB** ★★★★☆
- **Javascript** ★★★★☆
- **React JS** ★★★☆☆
- **AWS** ★★★★☆
- **Express.JS** ★★★★☆
- **HTML/CSS** ★★★☆☆
- **MySQL** ★★★★☆
- **GIT** ★★★★☆
- **PSQL** ★★★★☆
- **Go Lang** ★★★☆☆

API'S INTEGRATED

- **Razorpay**
- **Nodemailer**
- **AWS S3**
- **Flight Booking API**

CLOUD SERVICES

- **AWS**
- **GOOGLE CLOUD**
- **NETLIFY**

CERTIFICATIONS

- **CS50 Harvard University**

ANURANJ KP

NODE.JS DEVELOPER

SUMMARY

I am a backend developer proficient in Node.js. As a self-taught programmer, I am passionate about coding and dedicated to delivering high-quality solutions.

EXPERIENCE

FULL STACK SOFTWARE DEVELOPER
2022–AUG TO PRESENT

- As a Full Stack Software Engineer at Texol World, I played a pivotal role in the development of a cutting-edge, multi-platform Van Sales application.
- I made contributions to the backend, utilizing advanced MySQL queries to optimize performance and functionality.
- Additionally, I demonstrated expertise in frontend development.
- Worked in Admin Panel for a Restaurant Application using React and utilized state management with Redux to ensure efficient data flow.

WHOOFEY - BACKEND DEVELOPER
2022-MAY TO 2022-JUL

- Worked in Node.JS backend development contract based project
- Architectured the whole backend development implementation

WHOOFEY - SOFTWARE ENGINEER INTERN
2021–DEC TO 2022-JUL

- Developed customer relationship management software backend
- Developed artwork publishing platform
- Contributed in community platform
- Developed an online learning platform (Backend)
- Researched about blockchain innovations

FREELANCER - FRONT END WEB DESIGNER
2021–AUG TO 2021–OCT

- Worked in freelance web designing
- Implemented front end websites according to clients requirements

OTHER SKILLS

- **Leadership**
- **Communication**
- **Researching**

LANGUAGES SPOKEN

- **Malayalam (Native)**
- **English (Intermediate)**

PROJECTS

VAN SALES APPLICATION
NODE.JS EXPRESS.JS MYSQL REACT.JS ANTD AXIOS

- As a skilled full-stack developer, I played a key role in developing a high-performance van sales application
- I was primarily responsible for developing the admin panel, encompassing both the front-end and back-end aspects of the application
- I utilized React and the antd framework to design UI components and integrated APIs on the front-end.
- I implemented proper error handling and efficient database querying, utilizing advanced SQL row queries and transaction entries
- Our project structure was well-organized, which made collaboration and code maintenance seamless

E-LEARNING PLATFORM
NODE.JS MONGODB EXPRESS.JS

- I have significantly contributed to an e-learning platform that serves multiple functions and supports three types of users: students, parents, and teachers.
- I have managed the AWS server, which handles the video classes uploaded by teachers. I gained a thorough understanding of AWS and its capabilities
- Integrated a payment gateway, allowing users to purchase courses seamlessly.

RESTAURANT APPLICATION ADMIN PANEL
REACT.JS REDUX REACTSTRAP BOOTSRAP

- As a full-stack developer, I played a key role in developing a restaurant application's admin panel.
- Worked on the reports section of the application.
- I implemented pagination for all reports using React Table, which improved the application's user experience.
- Used Redux for state management, which improved the application's scalability and maintainability
- Utilized Reactstrap library based on Bootstrap to save development time and effort

ART MARKET WEBSITE
NODE.JS EXPRESS.JS MONGODB

- Arts works and drawing publishing platform
- Artist can showcase their drawings to users
- Images are uploaded to AWS S3 bucket
- Integrated Nodemailer API for automated mails
